"Together in friendship may we learn the art of photography"

Presidents Message

A couple of days ago as "Dopey Dog" - although my dog's name is Ginger Snap, he answers to Dopey Dog - and I were out for a morning walk and I spotted 2 dandelions. I thought this is great; soon I'll have an abundance of flowers to photograph. Amazing how those 2 dandelions elevated from pesky weeds to great looking flowers, really got my juices flowing. Every morning since spotting those 2 dandelions, I have found myself checking the buds on the trees and looking for bulbs that are flowering and I have not been disappointed. In spite of the cold, snow, ice .. new life abounds.

Spring is a great time for nature photographers, a time of rebirth with the beauty of the earth bursting forth. Many creatures are giving birth to their next generation and some birds are sitting on eggs. Take your camera and look around in any park or your backyard and you are certain to find lots of things to photograph.

You'll not want to miss the PFLI Spring Spectacular on Sunday, April 22. If you don't have your ticket yet, make sure you see Joe Crupi and purchase one.

We will have an upcoming program that's so special that we have added an extra meeting on Wednesday, April 25. Our own member - *Russ Burden from Denver* - will present an incredible show entitled "Tips and Techniques For The Nature Photographer." He'll share with us how we can raise our own quality of photos. See page 4 of our Newsletter for the write-up on Russ.

Florida beckons! Several of our members will join with friends from Southeast Queens and Syosset for a week long trip to the known photo hot spots of Florida in early May. Additionally, Joan Egan's nephew in Florida and 3 other Florida friends will join us for the trip ... a total of 16 travelers. This is a return trip to Florida for several of us and this year we've included several stops in Orlando.

A SPECIAL ADDITIONAL PROGRAM @ FCC

"Tips and Techniques for the Nature Photographer" by Russ Burden, Wednesday, April 25, 2007, at FCC

An instructional show of *Before*s and *After*s illustrating the ins and outs of nature photography. Show is divided into sections to teach the viewer about light, filters, framing, shutter speed, depth of field, flash and many more aspects of the trade. The show came to be as Russ' nature photography evolved and he learned the hard way just how difficult it is. Through his thoughts and ideas he'll share during the show, his goal to make the nature photography trek easier for others.

Russ has 2 books to his credit; he's the exclusive photographer in the Amphoto **Complete Book of Photography: Improving Your Pictures With a Film or Digital Camera**. His work is also featured in **The Best of Nature**, a book highlighting the world's foremost nature photographers.

For years he has been writing monthly **HOW TO** columns for **TakeGreatPictures.com** and sends out a weekly Photo Tip sharing photographic information.

Russ is an internationally published photographer. His work often appears in calendars published by **Kodak, Audubon, Sierra Club, National Wildlife, National Geographic Traveler**.

Russ is a long time member of Flushing Camera Club and participates in our competitions. His nature photo tours are listed on page 6 of this Newsletter.

Want To Upgrade Your Digital Camera, by Ron Caldwell

...or get into digital photography for the first time but find the cost too steep? Look into the manufacturers' refurbished cameras. You can literally save hundreds of dollars and get a great camera with a reasonable warranty. Also if the camera had any problems they have been fixed by the manufacturer. Most manufacturers have a refurbished section on their websites: on some it is easy to find while on others you have to search for it. Other great sources are Adorama, B&H and Hunt's. So, before you spend your hard earned money, check out the refurbished models.
